

LIVE UNITED™

Dear Employee:

Our company is committed to enhancing the quality of life in Brazoria County. We enjoy helping others through our corporate contributions program and encourage the involvement of our employees in civic and charitable activities that will aid those less fortunate.

United Way of Brazoria County is at the top of the list because we feel it is the best way to help where help is needed most. Giving through United Way helps the county become better for everyone.

We would like to offer you the opportunity to become a supporter of United Way. Information on the local organization and its services can be found at www.uwbc.org. Several of us here choose to contribute to United Way through the payroll deduction system – automatic deductions from your paycheck. Please sign and return the attached pledge card to _____.

We welcome you to the team and remind you that charitable giving is a personal choice. We give because we want to increase access to services for all those who seek it. Give because YOU want to give. Thank you for considering a contribution to our 2008 campaign and for learning more about how United Way builds caring communities.
