

LIVE UNITED™

Dear Retiree:

As our county has grown and shifted demographically, economically and geographically the health and human service needs of our citizens have changed. The basic needs of food, clothing and shelter remain, but there are other new and pressing obstacles emerging that range from lack of child care to housing problems to difficulties facing the aging.

There are 23 community care agencies whose programs are funded by United Way of Brazoria County and many are in your area. By helping at these agencies, those who are in need, no matter their age or ethnicity, will gain much needed assistance and you in turn, will benefit from supporting others.

United Way of Brazoria County is working every day to help give hope and support to our fellow citizens in need. As a retired member of the community, it would be well worth your while to not only make a monetary contribution, but to learn how the efforts of volunteers just like you are shaping our county.

Visit United Way of Brazoria's Web site at www.uwbc.org to learn how you can change someone's life. Thank you for considering a contribution through United Way.

Your Friend,
